Light Brown

Sonora Tan

Cobblestone Gray

Caramel

## IMPORTANT NOTES:

The Bomanite Classic Colors are available across all Bomanite product lines. The colors are shown in an unsealed form; there is no colored curing agent used to achieve these colors and any topically applied sealers or coatings will affect the final appearance. The appearance of the swatches on this chart may also differ from what is produced in the field due to, but not limited to the job conditions, finishing techniques, exposure of aggregates, curing methods, print lots and raw material drifts. Certain combinations of products and/or colors may produce dramatically different than anticipated color appearances. Refer to the appropriate Bomanite Technical Bulletin for additional information and product limitations.

This color chart is for preliminary color selection only. It is highly recommended that samples be created, viewed and approved using construction techniques and materials identical to those that will be used in the actual construction of the project. This sampling process must be completed prior to specifying the final color and appearance.

Licensed Contractor to request a color chart.

*NOTE: The Bomanite Company strives to provide website users with the most accurate color information possible. Colors shown approximate as closely as possible the appearance of selected product, however the screen colors should only be used for ideas as these colors are low-resolution and do not represent final results. Please contact your local Bomanite Licensed Contractor to order product color charts and samples for the most accurate representation of available standard colors.*
